

Model F72GFL for 400-460MHz
 F72GF for 440-480MHz

Heavy Duty, high-gain commercial use base station antenna

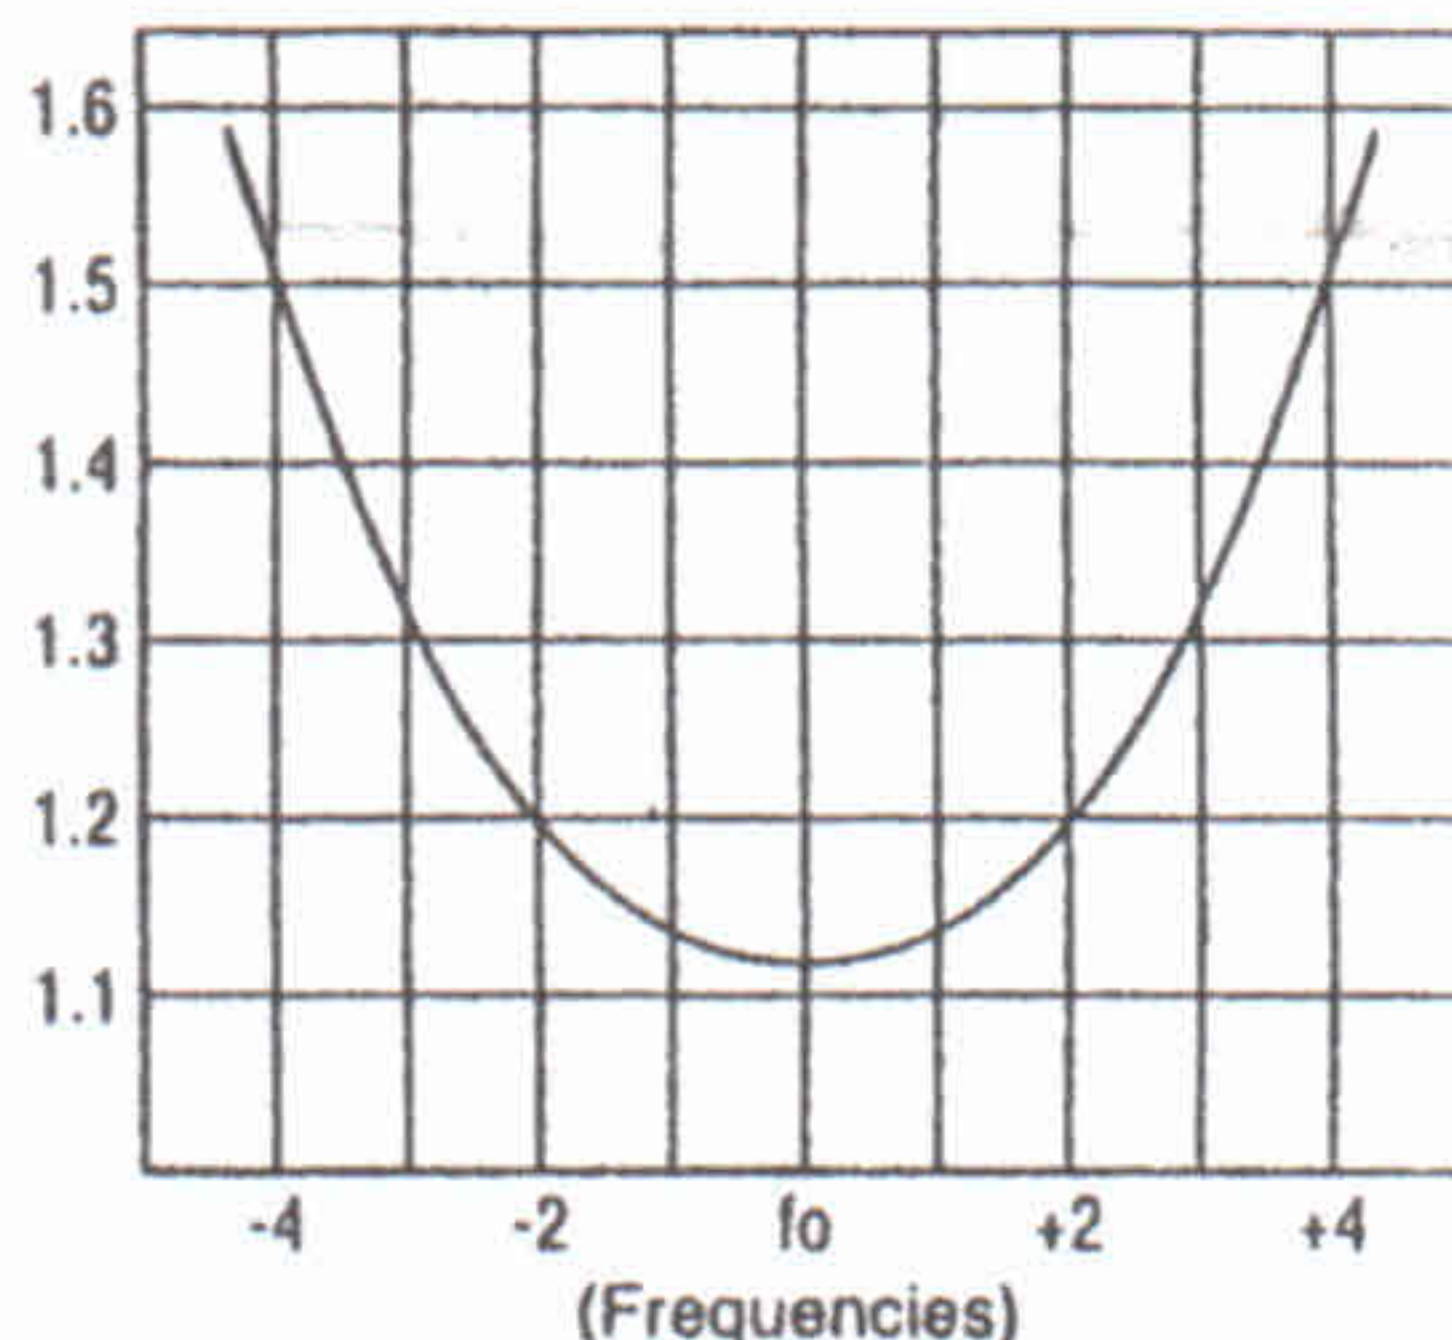

Features:

- *High Gain - 5.5dBi base station antenna.
- *One-piece fiber glass is heavy duty and is durable against weather and pollution.
- *Frequency can be easily adjusted according to the below element chart.
 (Or, the frequency will be fixed before delivery, if appointed at the time of order confirmation.)

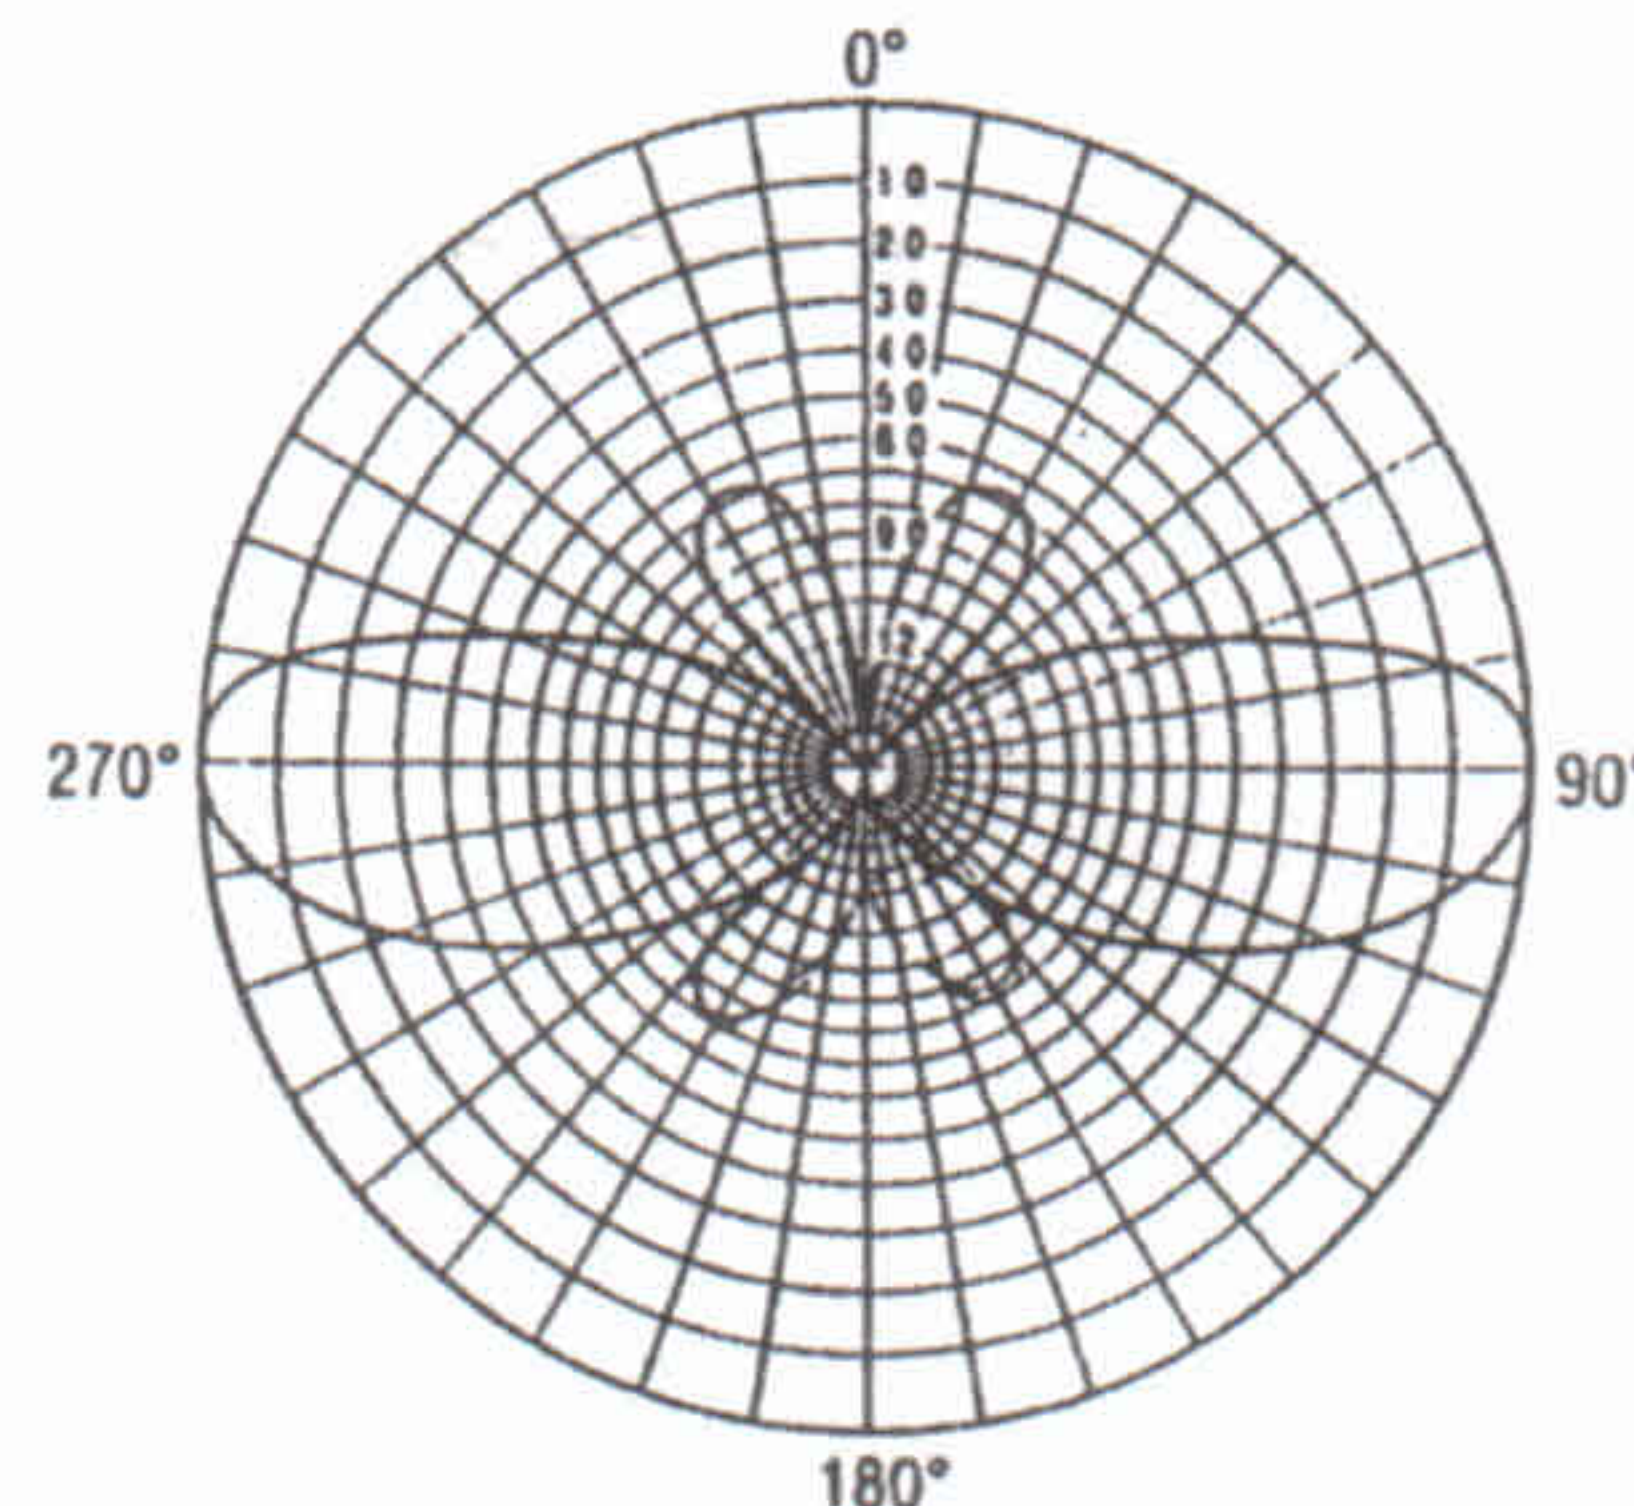

Specifications:

Gain : 5.5dBi, 5/8 x 2-step
 Frequency : F72GFL- 400-460MHz
 F72GF- 440-480MHz
 V.SWR : Less than 1 : 1.5
 Impedance : 50 ohm
 Connector : PL259 female (SO-239)
 Max. Power: 150W (FM)
 Weight : 1kg. (approx.)
 Length : 1.25m (approx.)
